Title: Investment Analysis Guide

1. What is Investment Analysis?

Investment analysis is the process of evaluating different investment options to choose the best one.

2. Types of Investments

- Stocks
- Bonds
- Mutual Funds
- Real Estate
- Gold

3. Risk vs Return

- Low risk → Low return
- High risk → High return

4. Fundamental Analysis

Study company performance using:

- Revenue
- Profit
- Assets
- Liabilities

5. Technical Analysis

Study price charts and trends to predict future prices.

6. Diversification

Do not invest all money in one place. Spread investments to reduce risk.

7. Investment Goals

- Short-term (1–2 years)
- Medium-term (3–5 years)
- Long-term (5+ years)

8. Conclusion

Investment analysis helps individuals make smart and safe financial decisions.
